## **Addicted to Vaginal Skin**

## **Cannibal Corpse**

A relapse of my body Sends my mind into multiple seizures Psychologically a new human being One that has never been

Cursed by the shamen
His voodoo spell has my soul
My limbs go numb
I can't control my own thought

Are his now
His evil consuming me
Ever telling me
Begin the clit carving

Slowly turning me, into a flesh eating zombie Knowing this spell can only be broken By the vaginal skins of young women I proceed to find the meat

Their bleeding cunts will set me free Warmth seeping from this Body rotted
After I sucked the blood from her ass

I feel more alive More alive than I've ever been Even though now I'm dead within

My mouth drools as I slice your perineum My body smeared with the guts I've extracted Through her hole, came swollen organs Cunnilingus with the mutilated

My spirit returned from the dead Released by the priest But I felt more real when I was dead

The curse is broken
I have a dependence on vaginal skin
It's become my sexual addiction
I must slit, the twitching clit
Rotted cavity hold the juice

Between the legs, I love to carve My cock is dripping with her blood
