Entrails Ripped from a Virgin's Cunt

Cannibal Corpse

Alive alone now that they've gone dead but unburied I've seen it unfold, terrible scenes of agony Eyes in the darkness Echoing their madness

The sights that have passed before them Watching as though it has never happened Now I only listen to what is not spoken

Murder, hatred Anger, Savage Killings I have caused more than can be counted orgies of sadism And sexual perversion Virgin Tied to my mattress Legs spread wide Ruptured bowel, yanked From her insides Devirginized with my knife Internally bleeding Vagina, secreting her blood-wet pussy I am eating on her guts I am feeding Mutilated with a machete I fucked her dead body The first and last Your life's only romance My knife's jammed in your ass As you die you orgasm

Pass on to the dead Nerve trembling convulsions No longer looking human

I never see them, but I know they're there Locked in my subconcious Obscene memories I thought I'd forgotten Haunting unrealities Tear at me Hold her arms Her mouth taped shut Screams unheard Out pour her guts

Layers of flesh peeling away Languish in your own decay descriptions of my killings bone chilling

Terror, tear, her Virgin cunt

Virgins are my victims Their tight interiors I explore Sharpened utensils of torture Now inserted inside of her Sex organs extracted for eating On her liver I am gnawing

Forbidden lust for guts Ripped from her cunt Tears of blood cry down her thigh

I ram my fist inside her hole From her crotch piss now flows Rectum filled with shit I fucked her emptied body Until she became stiff
