I Cum Blood

Cannibal Corpse

Swollen with liquid Ready to burst A load of my lymph Will quench this dead body's thirst

One month in the grave Twisted and half decayed She turned a putrid yellow I pissed in her maggot filled asshole

Fucking the rotting, my semen is bleeding The smell of decay Seeps from her genital cavity The smell was unbearable, as I unburied her

I cum blood from my erection I feel it run Down her throat, swallow

Eyes glassy and vacant Body dug up to play with Skin greasy and naked Tonguing her rotted anus

I need a live woman To fill with my fluid A delicate girl To mutilate, fuck and kill

Her body exceptional She thought I was normal But I wanted more I came blood inside of her

Choking on the clot Gagging on the snot Gushing blood, from her mouth Bloody gel leaking out

Body buried in a shallow grave Unmarked for none to find The sickness I have left behind Undetected go my crimes

The greatest thrill of my life To slit my cock with a knife Violent, climax, serging serum on my skin Back from the dead I am resurrected to spew, putrefaction
