Pit of Zombies

Cannibal Corpse

Captured by the priest of evil Deep inside the hive Hellish dungeon filled with undead Their rotting claws reaching for my legs

I hang above the ghouls
I know they want me for their food
Overwhelmed by deadly fear
Hung above the Zombie lair

Hanging by a thread above them
Taken here to die
Rotting hands reaching for me
Their undead eyes see me as a meal

They want to eat alive Mindless hunger in their eyes Filthy claws grasp at my feet Slashing wounds, my ankles bleed

Pit of zombies Chasm teeming with undead Death is grisly Lowered slightly now they reach me

I scream in frantic pain
Tearing off my feet with fury
The pain intense below my knees
My legs have been removed

They suck the blood from the wounds Voracious zombies rend my thighs They pull me down, my corpse They will divide

Pit of zombies
Chasm teeming with undead
Their jaws await me
A gruesome end the
Pit of zombies
Reanimated to devour
I watch them kill me

They claw at my face And rip off my scalp Exposing my skull Arteries severed

Gushing blood showers them drives Them mad raging mob A hideous feast

Puncture my stomach and
Tear out the guts
Devour entrails
Rotting zombies have torn me apart
They gorge on my flesh

Engulfed Consumed This pit My doom

Engulfed alive
Consumed by death
This pit of zombies
My doom is here

Pit of zombies
Chasm teeming with undead
Their jaws await me
A gruesome end the pit of zombies
Reanimated to devour
I watch them kill me
