

Backwards

Cannons

I was high as the moon
Falling down to you
I was a sea of stars
Shining bright for you
I was on my way
Back to you

But I was only
Falling backwards now
On my way back to you
Falling backwards now
On my way back to you
Back to you

I was down and out
I was twisting down the vine for you
In between and out
You could have seen the light
Shining just for you
On my way back to you
Through the thick and thin
I would pull for you
On my way just for you

But I was only
Falling backwards now
On my way back to you
Falling backwards now
On my way back to you

But I don't think I'll get too far
Without gravity
But I don't think I'll get too far
Without you and me

Falling backwards now
On my way back to you
Falling backwards now
On my way back to you
Back to you
Back to you
