

## Body Talk

Cannons

We met on the sands of disconnect  
Hiding behind eyes and lies playing pretend

They made me feel like a fool  
You made me shine like the moon  
My heart felt tired and used

Only you can feel my body talk  
Only you can hear my every thought  
Only you can feel my body talk  
Only you can hear my every thought

Only you  
Only you  
Only you  
Only you

I've been falling all over myself  
Dying to be someone, anyone else

You made my tired heart new  
Couldn't live now without you  
'Cause you made my heart bloom

Only you can feel my body talk  
Only you can hear my every thought  
Only you can feel my body talk  
Only you can hear my every thought

Only you  
Only you  
Only you  
Only you (Only you)

Only you  
Only you  
Only you  
Only you

Only you  
Only you  
Only you  
Only you (Only you)
