

High Off Love

Cannons

Can you feel my love from where you're laying?
Can you hear the sound of my heartbeat?
Do you want the same as I do, baby?
'Cause I really wanna know if you're here with me

'Cause I can feel your heart
I can feel your love running through my head
(Gonna give you all I've got)
I can feel the beat falling on my knees
Moving like a dream
(Won't you give me all I need?)

I could get high off your love
I could get high off your love
I could get high off your love
I could get high off your love

(I could get, I could get)
(I could get, I could get)
(I could get, I could get)
I could get, I could get
I could get, I could get
I could get, I could get
I could get, I could get
I could get, I could

Gotta feel the rush from your touch, baby
I've been feeling numb for way too long
Do you feel the same as I do, baby?
'Cause I really wanna know if you're here with me

'Cause I can feel your heart
I can feel your love running through my head
(Gonna give you all I've got)
I can feel the beat falling on my knees
Moving like a dream
(Won't you give me all I need?)

I could get high off your love
I could get high off your love
I could get high off your love
I could get high off your love

So tell me, baby, have I been wrong?
'Cause I've been waiting for so long
So tell me, baby, have I been wrong?
'Cause I've been waiting for so long
So tell me, baby, have I been wrong?
'Cause I've been waiting for so long
So tell me, baby, have I been wrong?
'Cause I've been waiting for so long

I could get high off your love
I could get high off your love
I could get high off your love
I could get high off your love
