Neon Light

Cannons

They all say it's suicide
The way you make me feel inside
Disappear into your eyes
Then I feel so hypnotized

'Cause you're a gun to my head
I feel the bullet going in
'Cause you're a gun to my head
I feel the bullet going in
Leave me to die
Leave me to die

When your shadow starts to shine
I start to feel the highest highs
When I'm with you, I feel alive
Looking through your neon light

So tell me what you think
Am I your missing link?
And I know that it's a sin
But with you, I'm innocence

'Cause you're a gun to my head
I feel the bullet going in
'Cause you're a gun to my head
I feel the bullet going in
Love just spinning
Love just spinning

When your shadow starts to shine
I start to feel the highest highs
When I'm with you, I feel alive
Looking through your neon light

Kiss me when the light turns to blue
My world, leave it all behind for you

When your shadow starts to shine
I start to feel the highest highs
When I'm with you, I feel alive
Looking through your neon light
