

Night Drive

Cannons

It was a snake-eyed paradise
Didn't know I was falling 'til you told me your lies
But I was wrong about you
You turned my whole world upside down and strung me along

So when you call me, yeah
It's not like it was before
Just say that you want me, yeah
Before I'm out the door

Stars up in the sky
Make me feel alive
Just another night drive
Wish you were by my side
Ridin' through the moonlight
Down the boulevard
Driving through the valley
You make me feel a...
Alive
Alive

It was a snake-eyed paradise
Took a chance and I rolled the dice
But I was wrong about you
You turned my whole world upside down and strung me along

Stars up in the sky
Make me feel alive
Just another night drive
Wish you were by my side
Ridin' through the moonlight
Down the boulevard
Driving through the valley
You make me feel a...

My mind goes back to another time
Back when you and I
Were driving through the city with our eyes closed
Somewhere only we know

Stars up in the sky
Make me feel alive
Just another night drive
Wish you were by my side
Ridin' through the moonlight
Down the boulevard
Driving through the valley
You make me feel a-
Alive
Alive
Alive
Alive
