

Round And Round

Cannons

When it hurts just to breathe
When you're down on your knees, you can call on me
And I will send you wings
So you can meet me on the moon tonight
And I will send you wings
So you can meet me on the moon tonight
(We go, we go, we go)

Round and around and around again, we go
(We go, we go, we go)
Round and around and around again, we go
(We go, we go, we go)
We're going round and round and round again
We're going up and down until the end
We're going round and round until we meet again
(We go, we go, we go)

When you're lost and out of reach
When you're feeling the fall, you can hold on to me
If I could only live inside your kiss
All the things I would give to you
If I could only live inside your kiss
All the things I would give to you

Round and around and around again, we go
(We go, we go, we go)
Round and around and around again, we go
(We go, we go, we go)
We're going round and round and round again
We're going up and down until the end
We're going round and round until we meet again
(We go, we go, we go)
