

# Shadows

Cannons

I'm lost in the dark  
Searching for a spark with you  
Keep holding on  
Let me move through you  
Let me move through you

Where have you gone? Waited so long  
How can I just carry on?  
Where have you gone? Waited so long  
How can I just carry on?

'Cause I'm feeling like a ghost  
Drifting  
Through the shadows of the night  
I'm waiting for you  
Through the shadows of the night  
Let me move through you

Falling apart  
It's breaking my heart in two  
Fade into view  
So I can move through you

Where have you gone? Waited so long  
How can I just carry on?  
Where have you gone? Waited so long  
How can I just carry on?

'Cause I'm feeling like a ghost  
Drifting  
Through the shadows of the night  
I'm waiting for you  
Through the shadows of the night
