

Temporary Romance

Cannons

(Can I love you? Can I love you? Can I love you? Can I love you?)
(Can I love you? Can I love you? Can I love you? Can I love you?)
(Can I love you? Can I love you? Can I love you? Can I love you?)
(Can I love you? Can I love you? Can I love you? Can I?)

It started with a whisper
And you don't even want to know
It started with a whisper
Now you're telling everyone you know

Still I want your love for me
Give it all to me, I want it all
Still I want your love for me
Give it all to me, I want it all

Temporary romance, ooh
Want you to show me the way
Temporary romance, ooh
Want you to show me the way

Whisper in white noise
Something like a static house
Sinking into white noise
Never gonna make it out

Dim the morning, I'll believe it
Tonight, I want it all for me
Still I want your life for me
Give it all to me tonight

Temporary romance, ooh
Want you to show me the way
Temporary romance, ooh
Want you to show me the way

I want you to get stuck in my head
I hear you over and over again
Don't make things so serious
I don't mind, we'll be fine after this
I want you to get stuck in my head
I hear you over and over again
Don't make things so serious
I don't mind, we'll be fine after this

(Can I love you? Can I love you? Can I love you? Can I love you?)

Temporary romance, ooh
Want you to show me the way
Temporary romance, ooh
Want you to show me the way
(Love you, love you)

(Can I love you? Can I love you? Can I love you? Can I love you?)
(Can I love you? Can I love you? Can I love you? Can I love you?)
