

You

Cannons

I can feel a little something 'bout the light
And the look in your eye
And I'm feeling kinda funny
Got my heart stuck in triple time

'Cause baby, it's you
Baby, it's you
'Cause baby, it's you
Baby, it's you

Now we're up above the city
And I'm lovesick from the high
And I'm trying not to admit it
But I just think you should be mine

'Cause baby, it's you
Baby, it's you
'Cause baby, it's you
Baby, it's you

You know you got me feeling butterflies
I knew the moment that I saw your eyes
You know you got me here all tongue tied
I wanna love you 'til the end of time
Baby, it's you

'Cause baby, it's you
Baby, it's you
'Cause baby, it's you
Baby, it's you

'Cause baby, it's you
I like what you do when you do what you do
Baby, it's you
I like what you do when you do what you do
'Cause baby, it's you
I like what you do when you do what you do
Baby, it's you
I like what you do when you do what you do
