

Canon Killer

CANON

Become the silent killer its like Jason
Stick a knife in the flesh, some of you gonna hate this
Sue me Susie sorry this story gloomy embrace it I
Gotta die tonight and the spirit sick of waiting aye canon

Your like a man with no legs I can't stand you
Kill the flesh, do what the vegetarians can't do
Satan wanting the upper hand instead Imma hand em this
Kamikaze blow to myself this liven is painful

I'm not the same I'm a walking insane animal
Can I be Canon cannibal king and counted as Hannibal to
Bust the melon wide open eat it like green cantaloupe
If you ain't got it I've gotten sick of myself in general

So I salute to holiness, I'm a soldier with armor
Sick of being weighed down we raising the bars up
Better yet skip the roof we raise God up
The Young man who shoot bad man as targets

Me in order to keep living I gotta kill me,
suicide bomber destruction without a healing,
look you wanna bless test me, the only blessing
I could have is dying for Jesus and not a neck piece
