

Grateful

CANON

Whatchu know about your life passin' by?
Right before your eyes, right before your eyes
See I gotta be grateful
See I gotta be grateful
2015, 2014, 2013
I carry mine, but y'all been holding me down each and every time everytime
See I gotta be grateful
See I gotta be grateful

Okay, twisting choppin' I was fighting dark
But I heard "Get the Canon" fallin' off
November 22nd then the life and death
Ain't never resurrected knock it off
Been a menace to get the cannon to fall off his game
When a kamikaze victim workin my lane
Spin appearance
I been apparent
I'm whippin this industry
Come up and give me a ministry
Summon my name
I woke up on my death bed
I'm stretched wide on that stretcher
Got a wife at home plus company owned
Plus a label known, and that's pressure
So I'm one to talk about blessings
From way up like Tetris
Broke down to pieces
Told God don't leave me
My body broken, I'm helpless
Look Man down get em, the savior turned victim
Fall off cliff, head get bussed, found down trenches
Lauren told dem wisdom, victimizer or victim
Both end up in destruction
Who trusts in dem system
He said the sky's the limit, but i ain't done jumpin'
The whole clique was riding with me when I had nothing
Like the Shot Gun to Ricky spine spine I'm back to bussin'
Get on my JR shooting until I hit the bucket

Whatchu know about your life passin' by?

Mom dad
Is that you?
Why is there pain in my jaw
Why is it metal and screws in my leg
Well Aaron, remember you suffered a fall
Mm. I should of been way more careful
Forget crying, I'm a soldier
Man I wonder what my wife was thinking when she got the news about me when s
he answered the call

Man Fall up off a cliff then Brandon found me then I
Woke up in the hospital my hand around me
Got the wife on the side with the clique around me
Got the Chiraq city my family got me
I should've been dead but it's grace that Canon can finally see,
I've got that trachea tube out of me and now I can finally breathe
Man I'm struggling to breath better call the doctor
How many times I got say stop to stop ya
You steady tryna give me more shots I gotcha
Don't try to tell me to chill and change my posture
This hurts and I really can't breath I'm choking
I'm high as a kite but you think I'm joking
I couldn't talk at all, had to write with Post-Its
I hate these nurses how worse can worst get
I hate this
I know that everybody wants to try to relate
Well I'm here to tell you don't try cause I promise that none of you can't
And your words encouraging hope in the end is cool but hey
Sometimes I only need good shoulder to hold me with nothing to say cuz
