

Lay Up

CANON

Ball in my court how I step this a lay up
My life like a movie
Just keep moving, this a trailer
Cheffin in my kitchen got me tryna get my cake up
I thank God for all that's coming to me now it's straight up

Big Broski on my line said lil brudda get yo feet in
But Tap in with your people
Make sure they doing decent
Been showing me how to readjust some ways that I've been thinking
I've been trying to protect what I've been building
Been on defense

Been Celebrate our friends we gone up it when we touchdown
BYOD shout out to my homies working sundown
I should call my sista for some custom gold fronts now
Soul already shinning don't need no diamond Rollie bust down

No matter how far
I can't forget the opposition
If you ain't been running from this side you seen as competition
Wisdom telling me, better slow down
My heart and mind conflict
I'm patient ain't no free pass I done
Paid a lot for my position
Come and get it

All in my court how I step this a lay up
My life like a movie
Just keep moving, this a trailer
Cheffin in my kitchen got me tryna get my cake up
I thank God for all that's coming to me now it's straight up

Fake love and new friends
I'll go outside with my kin
Big glow with my chain on like I'm sitting on M's
Be careful you too loud with it
Then they'll get you for yo ends
And all that flexing around for nothing
Now you sitting down on some bricks

Big cleats, running down no losses
Watch me step up to the big Leagues
Been hitting home runs
But I'm too loyal I can't switch teams
Running out for them trophies
With our face all on that big screen
That fame will hit you fast
Switch up quicker than a ten speed

I can't let my soul fall back on diamonds and gold
Real ones ain't gone let you fall into no trap but watch they motives
Seen them hovering over the shoulder
Then hit a lick why you gone
I'm keeping all enemies closer yeah I've been ready on ten toes
Don't

All in my court how I step this a lay up
My life like a movie
Just keep moving, this a trailer
Cheffin in my kitchen got me tryna get my cake up
I thank God for all that's coming to me now it's straight up
