Let's Go

CANON

We can take it outside settle this
See it in ya face you want none of this
Throw a few shots I'm a make you miss
I'm a dip uppercut with the fist
I ain't no stranger to the road work
I'm a hit the bag til the ball burst
Say you got next but it's ours first
It's grind time, that's how it works
Looking for a fight you can let em in
It's about to go down you should tell a friend
They can get it too don't be jumping in
Turning me up to a level ten

Let's go
Let's go
Let's go
Let's go
Let's go
Let's go
Let's go
Yeh, check me out

I've been a loose Canon, I'm a step first
After three rounds bustin' then I'll let it burst
I carry the weight it's nothing but leg work
Cuz I'ma get to popping
I'm knocking him Till his head hurt
You don't want a problem with the master
But I'm the one you gotta fight after him
I'm a big problem
Make them all fall like august
And then I'll have them stinking like garbage
You don't want to get me cornered
Mmm, I'ma have you down by the morning
Call up ya friends call the big boys in
You brought the party I'll bring in the noise in
The team like ooh, watch how we up them now
Shut the one down with the big mouth
Make them get low
Their king and queen don't know
Two for one deal gotta get both
Time to get started
The tools in the back and I'm getting parts with it
Spar with three hundred warriors we coming like Spartans
I'm charging, like call of duty a veteran hardened
My army is coming to hit a target regardless
I'm war-ready and bull-headed
I gotta mission to hit them up with adrenaline
Soon as I get the feeling I'm pinning my enemies
They not hitting me, can't get rid of me
Won't flop cuz Canon he gone pop
So come on let's go
Don't come for me like Woah
Why you brought beef to my door
Cuz you had it coming
Cuz I'ma pull up when it's war
Don't expect me to knock on the door

You know I'm coming
Control ya breathing
Soon I know you gone need it
Just know when you see me
Survival it will not be easy

Let's go
Let's go
Let's go
Let's go
Let's go
Let's go
Let's go
Let's go
Check me out, come on, let's go
Just know when you see me survival it will not be easy
