

Shoot if only I could do magic  
I won't need ya luck  
Not a dream that I would I give up  
I could only imagine  
If the galaxy was in my trust  
I'd still see all of my cuz  
Life ain't how we imagined  
I'm gone need no space  
The way I'm feeling got me anxious, how are we gone make it  
My heart can't hold no no baggage  
Like I'm bleeding out with no bandages  
I just feel so damage if only I could do magic

Just to get away from bad news  
I thought it a take my pain  
That's a Jack move, heart stressing  
Going nuts no money no cash-ew  
High to get me lifted but I done twisted off my last screw  
Brain going crazy, can't silence my thoughts, why they hate me  
Discouraged still they make me  
But I still can't let it phase me  
I, I might call up cousin  
R.I.P my cousin  
Oh may she rest above em  
Yeah  
I snap out my feelings, then I hop back up in them  
I can't lose control I gotta hold my temper  
I can't put that pressure on you  
If I put my heart out it could shake the whole room  
I got real pressure yeah  
You see me stressed, don't press my hand no  
Pandemic what you mess up my plans for  
In a river of my emotions, I'm caught in the denial  
And the baggage is adding up please don't slow me down

I won't need ya luck  
Not a dream that I would I give up  
I could only imagine  
If the galaxy was in my trust  
I'd still see all of my cuz  
Life ain't how we imagined  
I'm gone need no space  
The way I'm feeling got me anxious, how are we gone make it  
My heart can't hold no no baggage  
Like I'm bleeding out with no bandages  
I just feel so damage if only I could do magic
