

# Shake Sum

CANON

Yeah, yeah (All day)  
Yeah, yeah (We outside)  
Hold up, yeah, yeah  
Yeah, yeah, hold up

We ain't goin' out bad, they can't break us (Can't break us)  
Sleepin' on our backs, watch me wake up (Yeah)  
Full court press, push that weight up (Push that weight up)  
Us against the world, we gon' shake sum (Boutta shake sum)  
We ain't goin' out bad, they can't break us (Can't break us)  
Devil on our backs, watch me wake up (We wake up)  
Full court press, push that weight up (Push that weight up)  
Us against the world, we gon' shake somethin' (Yeah, on me)

Too many out here gettin' they life took  
Sellin' they soul to the devil 'til they crash out  
They go swimmin' in deep waters, now they life shook  
Couldn't sleep, brodie popped a pill 'til he passed out  
She say she wanna reaper with a mask out  
Poppin' up alone if you ain't pop out with no cash out  
Super freak, why would I compete? I got a fam  
I got too much in my future, I got too much in my plans  
You can stack up for tomorrow, but it's really in God's hands  
They got demons on they back tellin' 'em they ain't got no chance  
Can't plan to make more money if you ain't make no plans  
Bro settin' up that drill to fill that hole in his pocket  
Entertainment made to feel real like it's poppin'  
Diabolical doctrine, confusin' they life options  
We're a product of a system where they all wanted us locked in  
They role models dead or locked up, but next they top tens  
Stop spinnin'

We ain't goin' out bad, they can't break us (Can't break us)  
They want us sleepin' on our backs, watch me wake up (Yeah)  
Full court press, push that weight up (Push that weight up)  
It's us against the world, we gon' shake sum (Boutta shake sum)  
We ain't goin' out bad, they can't break us (Can't break us)  
Devil on our backs, watch me wake up (We wake up)  
Full court press, push that weight up (Push that weight up)  
It's us against the world, we gon' shake somethin' (Yeah)

We hard-headed, started from the bottom tryna make sum  
She say she want a man with a blicky, like he gon' spank sum  
Ain't thinkin' about his kids, for his bros he gon' fake sum  
Resortin' back to violence 'cause that's all he done came from  
Tell 'em war stories on YouTube like, ayy cuh  
Performers in they circle, the fans watchin' they plays  
Better count your days, there's regulations for them games  
You either dead or you got caught, that's why the world know your name  
It's so many out here lost 'cause they ain't see no change  
They accustomed to the lifestyle, they ain't tryna pipe down  
If they gon' pull them tools up, I can't put my mic down  
That's why I keep shinin', demons wanna take my light down  
They livin' in a blind world like they ain't got no sight  
And they shoot when under pressure 'cause they ain't got no fight  
But it's a cold world, survival of the fittest every night  
Y'all are hoppin' out they feet, steppin', airin' out they Nikes

Now your homie got your chain on, now you think he nice  
Left the lock on the post, now they comin' for your life  
I ain't gotta worry 'bout none of that 'cause I ain't with the beef  
I gave my heart to the Most High, you gave your heart to the streets  
I know it's hard to change your life, the cycle got you motivated  
The fast life got you dyin' fast, never slower cadence  
That's why I'm tryna have 'em understand that that's just overrated  
Victim to a system, got you runnin' from them open cases  
Your OG's ain't steppin' up to save y'all  
Born to circumstances, well, only God can change y'all  
The field you're workin' in gon' cost your life, ain't no days off  
You pray it pay off, rockin' them jewels like you Adolf, like hold on

We ain't goin' out bad, they can't break us (Can't break us)  
Sleepin' on our backs, watch me wake up (Yeah)  
Full court press, push that weight up (Push that weight up)  
It's us against the world, we gon' shake sum (Boutta shake sum)  
We ain't goin' out bad, they can't break us (Can't break us)
