CANON

Shocking ain't it
Gone have Tape dis
This gone make yo face lift like a space ship

Thought you done seen it all
Aye some gone hate this
This gone make yo face lift like a space ship

He so super straight my poppa he so super great
He's the author and the finisher of the believers' faith
Kinfolk we gone negotiate
God and his supremacy
'Cause they say he ain't worthy of our worship and our energy

Wants to to be acknowledge
Attention from everybody
He demand you look him straight in his far and then pay him hom age

More than a simple how you doing see that's the problem
They don't see em as valuable or incredible nor astonishing

You set aside your bible with it and see how much he sovereign with it
Look up at all creation
Some fools say well I don't believe he dis

Nope aye look this evident
Can't nobody make elements
And make everything from ex nihilo like my Daddy did

Stop now drop now look up to the top now

Shocking ain't it
Gone have Tape dis
This gone make yo face lift like a space ship

Thought you done seen it all
Aye some gone hate this
This gone make yo face lift like a space ship
