We Been Here

CANON

They ask us for some more tell them we them boys
Want to know how we do it tell them we don't lose
God made me so different since my first day
I say L-O-L boy then ride the waves
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah

Okay, them never been's, don't bring those
Try to copy hard like Kinkos
I'm all down for my day ones
But them bandwagons try to free load
Been independent, on the ground, underground
Been bold with the beast mode
Been up on the waves since day one
So I'm Lil' Yachty plus three boats
Been a vet up in this, I know how to get it
Try to kill the real, but ain't no honor in it
Now, my dirty Sprite will get you live-r in it
I connected all the summer signin' in it
Now they rollin', buildin' up the house, yeah
Actin' like we ain't out here
Rick James with that new wave
While I roll my feet up on your couch, yeah
Yeah, yeah, flow so bad and boujee, I got it bad
Mix that Draco with that Canon, that's me on the track, yeah
You don't understand it you can run it back, yeah
Or catch me right outside
How 'bout that

They ask us for some more tell them we them boys
Want to know how we do it tell them we don't lose
God made me so different since my first day
I say L-O-L boy then ride the waves
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah

They don't understand we really be doin' this
Puttin' in work homie, day after day
Why nobody want to work with me
'Less it's a cosigner looks like I can make 'em some pay
Really comin' for these copycat rappers
That never do nothin' but takin' a stance
Really coming for these copycat Christians
Ashamed of his name 'til Chance gave 'em a chance
Not a amateur no more, it's time to be a pro, yeah

I can't be a pro tryin' to write the flow, yeah
I ain't with the shady business, keep it at the door, yeah
Father always told me I was made for more, yeah
Jesus Christ be in my life
He been there since day one, we takin' flight
And I know it's hard always tryin' to do it right
But I got beef with Eazy like I'm Suge Knight

They ask us for some more tell them we them boys
Want to know how we do it tell them we don't lose
God made me so different since my first day
I say L-O-L boy then ride the waves
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah
We been here, yeah
We been here, yeah
We been here, yeah
Oh yeah, oh yeah
