

We Worked For It

CANON

They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it
They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it, worked for it

Blood sweat and tears the fuel for my success
They talk about my fall but I ain't tripped yet
They thought I'd be in stripes dressed like a ref
Cause when I'm from if you foul, you'll get the tech
It turned out that they wrong that man made out steel
I got pennies for my thoughts and bout a house in the ville
Now they gone try and ride the wave but I'm building a moat
And off the streams I'm living on, maybe buy me a boat
They tell you we ain't really winning, end the conversation
And if you got the game on lock, I found the combination
I found success in my career but I'm not complacent
Until my team is holding trophies over head
I cut my debt and overhead I own master like slavery in reverse
You start feeling blessed when creator reverse the curse
They thought I was dead but drove the hearse in reverse
And parked it next to heaven now it's time to get this work

They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it
They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it, worked for it

I ain't got too much time on my hands
A lot of y'all ain't gone understand
Had to get up out the mud and I ran
A lot of y'all ain't gone understand

I had to see somebody to be somebody
In other words I had picture what ain't exist yet
Create out of mindset I can't let my mind rest
No shawty got scars on my body they remind me how pain change
You in your main frame teach you to maintain
Cracks in your heart hurts force you to team work
Make sure the picture comes to life ain't that like dream works
Ain't that how dream works?
I need a mansion for expansion just off of rap
I got the squad in fourth quarter then it's a wrap
That's a pass from the in-bound blessings are in bound
Y'all counted us all out but we won (one) like the first count

They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it

They been wondering how we made it to the top, yeah, we worked for it
Ain't nobody give us nothing so we worked for it
Dirty cause we got it out the mud, oh, we worked for it
I never let you take it from us cause we worked for it, worked for it
