

## All My Life

Canterbury

All my life I've been searching for gold  
on the beaches I never grew old  
on the mountains I stood with someone  
they'll be with me all my life

All my life I've been searching for gold  
on the beaches I never grew old  
on the mountains I stood with someone  
they'll be with me all my life

All the times I was standing alone  
you were there when I needed you most  
on a map we would never get close  
you'll be with me all my life

All my life I've been searching for gold  
on the beaches I never grew old  
on the mountains I stood with someone  
they'll be with me all my life

Well I'll shock you out if you need convincing that I'm electric  
c  
yeah I'll shock you out if you need convincing that I'm electric  
c

All my life I've been searching for gold  
yeah, on the beaches I never grew old  
on the mountains I stood with someone  
they'll be with me all my life

They'll be with me all my life.
