

Going Nowhere

Canterbury

I can close it alone
...baby I got the world on my own
Looking for the world that I know
For the crowds that I know

You've been washed up alone
Trying to keep the faith all alone
Loving through the world all alone
Looking for the world that you know
For the faith that you know

And

I'm going nowhere
I'm going nowhere
You're going nowhere
We're going nowhere
Let's move away now
Let's find our way now
We'll find it somewhere
We're going somewhere

Yeeeeeee

Yeeeeeee

I've been stripped on my bones
I'm going into space on my own
This isn't like the world that I know
I got stripped on my soul
...And you look to the skies
Trying to cover the faith in your eyes
The more clouds in your mind
The more crowds you'll find in the sky
I'm clear but

I'm going nowhere
I'm going nowhere
You're going nowhere
We're going nowhere
Let's move away now
Let's find our way now
We'll find it somewhere
We're going somewhere

Yeeeeeee

Yeeeeeee

I'm going nowhere
I'm going nowhere
You're going nowhere
We're going nowhere
Let's move away now
Let's find our way now
We'll find it somewhere
We're going somewhere

Yeeeeeee

Yeeeeeee

Yeeeeeee

I'm going nowhere
I'm going nowhere
You're going nowhere
We're going nowhere
Let's move away now
Let's find our way now
We'll find it somewhere
We're going somewhere

Yeeeeeee

Yeeeeeee
