

# Keep It Moving

Canterbury

It was a light, that's all I remember  
Sitting alone in the dark for days  
I was a question, you were the answer

Making heaven June to September  
Winter came and pushed you away  
I couldn't help, I had to surrender, had to surrender

I fought the air that kept me alive  
Thought that was the truth  
But I was living a lie  
Thinking that maybe I wouldn't survive  
But I have an angel now by my side  
You give me the air that keeps me alive  
You give me some truth that I can keep in my eyes  
Showing me there's a way to survive  
And give me a reason to...

Keep it moving  
Even when it feels like in life you're loosing  
I can be the one you were for me  
I think we're one in the same  
I think we are making our way  
You know, you know what they say  
You'll never make it far  
If you're on your own

I fought the air that kept me alive  
Thought that was the truth  
But I was living a lie  
Thinking that maybe I wouldn't survive  
But I have an angel now by my side  
You give me the air that keeps me alive  
You give me some truth that I can keep in my eyes  
Showing me there's a way to survive  
And give me a reason to...

Keep it moving (4x)

I fought the air that kept me alive  
Thought that was the truth  
But I was living a lie  
Thinking that maybe I wouldn't survive  
But I have an angel now by my side  
You give me the air that keeps me alive  
You give me some truth that I can keep in my eyes  
Showing me there's a way to survive  
And give me a reason to...

Keep it moving (8x)
