

Stay alive, for all the times that you lied  
Change your life  
You've gotta change it all, before you fall down  
You like a hole in the head  
When you stand up proud and you wont back down  
If you find yourself digging again,  
well find the insane.

You're all alone in the world tonight.  
You're all alone but oh, you're on my satellite.  
My satellite will bring you back to life.  
Do not change your ways and become the only one,  
on my satellite.  
My satellite, will bring you back to life (I'm alive)

Afraid from the feelings that could change your life.  
You've gotta take a fall, before you crawl out.  
I've got a hole in the head.  
You won't see the path cause its too far down.  
And you're burning every bridge that you made.  
You'll never be the same.

You're all alone in the world tonight.  
You're all alone but oh, you're on my satellite.  
My satellite will bring you back to life.  
Do not change your ways and become the only one,  
on my satellite.  
My satellite will bring you back to life.

You're all alone in the world tonight.  
You're all alone but oh, you're on my satellite.  
My satellite will bring you back to life.  
Do not change your ways and become the only one,  
that's on my satellite.  
My satellite will bring you back to lalalalalala....
