

Your Face Is In Hd

Canterbury

Six people out in the forest never seemed like anything would go wrong
And that's what we said. This is a one-time thing and not what we do every day, all day.

Tell me what you want me to be.
Please tell me I'm a friend for real.
Well, things are creeping up and it's information
That I don't really want to find out.

We are away in a dream fetching food for all.
Fearing to face what we know is upon us all.
Just empty hands on the bars of a rusty bike.
Fear in the face as our powerful minds think alike.

Six friends all out in the open, don't you do it if you think something would go wrong.
That's what the man said. Don't be afraid of flames at all,
When fire's burning, it can still burn your hands.

If it's life at its very best
For it just to question everything you hold close to your chest.
It's creeping up and it's information
That I don't really want to find out.

Oh, I think I'm about to trip and fall,
Think I'm about to lose it all.
Exposing reflections or greater aspects/expansions [?]
We should look in the mirror,
But not at the same time.
Time, it doesn't exist at all,
I think I either lost it all
Or never found it all.

We are away in a dream fetching food for all.
Fearing to face what we know is upon us all.
Just empty hands on the bars of a rusty bike.
Fear in the face as our powerful minds think alike.

Oh, I think I'm about to trip and fall,
Think I'm about to lose it all.
Exposing reflections or greater aspects as if
We should look in the mirror
But not at the same time.
Time, it doesn't exist at all,
I think I either lost it all
Or never found it all.

We should look in the mirror but not at the same time.
