

The Professional

Canton Jones

I'm a pro at it
I'ma pro now watch me go at it
[x5]

(I'm a Professional Praiser)

I come in with my hands lifted
Don't know it all, but I'm praise gifted
All of a sudden, atmosphere shifted
Like John let your hands get lifted
I like to praise him with my eyes closed
In the public or behind doors
Lord I praise him when I'm doing shows
I'm a pro watch me go
Slow it down we can do it fast
With the clap of the symbol crash
I can even praise him with my cash
20 G's when the buckets pass
Let everything that have breath (breath)
That means if you ain't seen death (death)
Praise Him for His wondrous ways
Give Him professional praise

I'm a pro at it
I'ma pro now watch me go at it
[x5]

Praise is what I do
Like when the word said you can do it too
You can even praise him with your crew
Or alone, it can be Him and you
God is better than a pot of greens
Righteous Forsaken that's something that I've never seen
Sundays best so you can praise Him in your jeans
Oh praise the Lord, Psalms 117
I was made for this
Prayed for this
Don't have to get paid for this
I slave for this
Maybe you on the airplanes
That's what I call a high praise
Everyday got a different praise
Different praise for a different phase
If you won't praise 'em me and you
Like MC hold my mune and watch me

I'm a pro at it
I'ma pro now watch me go at it

Watch, watch, watch me do it
I'm pro I can crank it up, man without music
Motorbike Mike even do it rock to it

When I get right to it, people be like U.A (U.A)
Ay hold on, I been a pro for so long
And once I start to feel it
Ain't nothing that can go wrong
Ain't nothing to it
I can do it like that
And I don't need fluid
Just to lose it like that
My crew in the back
But we ain't holding up the wall
Who said I need a front just to see what's going on?
Break up the song
Tell 'em bring it back
(Hey you!)
Hey D.J. bring it back
My hands in the air
My feet down low
I do it everywhere
Ain't nothing on the downlow
You can do it too
Go ahead and give it a try
I'm pro, that's for sure with it, that's no lie

I'm a pro at it
I'm a pro now watch me go at it
[x5]
