

One, two, three  
Make you feel lucky, lucky  
Make you wanna love me, love me  
Baby, when you with me, with me (Ooh, woah, oh)  
Got no worries, worries (Ooh, woah, oh)  
I love it when you touch me, touch me (Dear Lavish, I love you)  
Feelin' so lovely, lovely (You make me wanna love me)  
Make me wanna love me, love me  
Make me feel lucky, lucky (Ooh, woah, oh, ayy)

So I'm just sittin' here lookin' at this girl and I'm confused  
Just tryna figure out like, "Who the fuck she talkin' to?"  
Know who she gettin' live with, I'm tryna keep from wildin', but I know she can't be talkin' to me  
You goin' through my page then we argue all day, oh  
You not even my girl, put down my phone  
At least that's what you say, you said that it was dead, no  
You just do too much for me

Tell me where you wanna go, oh  
I taught you everything you know, oh  
And anywhere you wanna go, it ain't too far from me  
Do the things we know, girl, you're a part of me  
When you need me, you can call on me  
Remember you're a part of me  
So when you need me, you can call, yeah  
When you need me, you can call, yeah, yeah-yeah-yeah

You don't want no one else but me  
But you move like I'm the enemy  
You act like you don't wanna see me  
But you do, you don't wanna go nowhere  
So dramatic, I swear  
But you look so good, that ass so fat  
And I just wanna, mm  
Girl, we arguin' for nothin'

'Cause every time that we arguin', it's like the same thing  
And all these women I'm fuckin' but none a damn [?]  
How you say you don't need me, when every night that you pleased me,  
it ain't no way that a nigga could do a damn thing  
Girl, I need you to come home with me  
Ain't no way that you ain't close to me 'cause I need you  
And ain't no way that I'ma leave you, 'cause I need you, yeah, yeah  
Girl, I need you to come home with me  
Ain't no way that you ain't close to me 'cause I need you  
Oh baby girl, you know I need you, you know I need you, yeah, yeah
