

OT

Capella Grey

You know I got you when I come back to the town
(You know I got you when I'm back in town)
But I gotta go
Girl, don't wait up, no
I gotta see the love from me OT

Allepac the family

Uh, why would I take a shorty OT?
There's already shorty's OT
Why would I bring sand to the beach?
When they're all on me and they're all OD

Freak she want
Freak, she callin' that Birkin
She can't believe she seeing me in person
My first time in your city
Show me that shit that you done said we on, OT

When we're OT (When we're OT)
Oh, when we're OT (When we're OT)
Oh, when I'm in your town (When we're OT)
You probably already know what it is when I shut it down
When we're OT (Oh, we're OT)

Why would I take my bitch to Tulum?
When we all know all the bitches go to Tulum
Told them turn the lights up, I see some hoes in this room
I was tryna smoke some weed, but then she tryna do some shrooms
The baby wavy, wavy, got me swimming in it
Tropical water like Carribean
One night in your city she like "Gimme it"
She poured up some '42, I'm drinking juice and gin
She said could you take me to the West side
But she know I got a bitch on the West side
And we only see each other in New York
And whatever happens here, stay in New York

Why would I take a shorty OT?
There's already shorty's OT
Why would I bring sand to the beach?
When they're all on me and they're all OD

Freak she want
Freak, she callin' that Birkin
She can't believe that she seeing me in person
My first time in your city
Show me that shit that you done said we on, OT

Uh, eye contact, it's over
Says she like my accent, she open
Beat me to the terminal, want that baby so bad
She only fuckin' with me 'cause she know I'm chosen
Lie to me
Tell me the pussy is mine when we freak
As long as you don't speak about it
Then shawty we can sneak around

Little baddie from the inner city
I'm her nigga when I'm in her city
Ah, you know when I come through
We gon' make a movie, yeah

Why would I take a shorty OT?
There's already shorty's OT
Why would I bring sand to the beach?
When they're all on me and they're all OD

Freak she want
Freak, she callin' that Birkin
She can't believe that she seeing me in person
My first time in your city
Show me that shit that you done said we on, OT

Girl, don't be shy now
Oh, when I'm in your town now
Can we catch a vibe?
I wanna do what you do
I'm in love with you but you know
We where it's litty at
Uh, show me where the bittys at, see me
