

Talk Nice

Capella Grey

Don't waste my time today
City gon' move, yeah, we outside today
I pulled up with the gang, a bunch of young fly niggas
They know when we slide we bring the vibe with us
Don't even gotta say when I'm in town, she know
Don't know her sign but she wanna fuck with a Leo
We got it litty out of nothin', nah
Went from overlooked to overbooked

Now, they gotta talk nice
Yikes, that's tough
Now, they wanna switch and readjust (Ohh)
They was tryna act like they didn't know us
Now that price going up, they could stay there

She said she from the Ville, borderline boogie down
She got a man but she call me when she want rounds and rounds
I told her don't think about it
But she gon' do what she gon' do and I ain't mad at her

She look at me like she just wanna
Climb up on me, get nasty in the foreign
Lately, niggas been on they P's & Q's
'Cause they know what the fuck going on

Trust me you want peace forreal
'Cause we ain't industry, we in the streets forreal
And we don't hear when they talk
'Cause when we pull up it's a different story
Missioned aborted and we don't have time today

City gon' move yea we outside today
I pulled up with the gang, a bunch of young fly niggas
They know when we slide we bring the vibe with us
Don't even gotta say when I'm in town, she know
Don't know her sign but she wanna fuck with a Leo
We got it litty out of nothin', nah
