Capella Grey

Don't matter how many times
I see your face I don't get tired
Of telling you how beautiful you are
Wanna love you brainless
Double texting, shameless
Wanna make you feel weightless
But don't put me on your waitlist
I know I'm not the only one that wants you like I do
But let me get a chance to show you
Lemme get a chance to know you better baby
I don't mind sweating you
Just the thought of
You and me girl
Shit it just sound proper
You got a lot on ya mind I know
But those are thoughts for the sober
But just know when you come over
Just let me ease your mind
Let me set off your whole body
Just give me likkle a yuh time
Let me snatch that soul from you

Lemme make you sweat
Lemme make you hotter
Make you lose your breath
Make you drip wata
Lemme make you sweat
Lemme make you hotter
Make you lose your breath
Make you drip wata

Let me make you sweat oh girl
Let me love you better
Than you ever have been loved before
Make you sweat
