

Be a King

Capital Kings

There's so many around the world
With voices buried beneath
We can't let our voice start to fade away
oh oh oh ooooooh
You gotta keep fighting, bold as a lion
oh oh oh ooooooh
You can make a change
I want you to be king king king king king king king
Be a king king king king king king
I want you to be a king

(Be a king)

Uh, gotta rock and roll 'cause time's flying
What you selling, yeah I ain't buying
Trying to bury all of these thoughts and negativity
'Cause yeah I'm starting to see that
They try to box you in into a corner
Play you like an Xbox controller
But my discernment is far from obscure
Let's take it to another level, boom
Like the beat just keep rockin'
Power of your voice, don't let it be forgotten
People all across the nation have expectations
Someone to change a generation
Yeah, I can see it in your eyes
Invisions so deep that are full of life
Steady fighting 'cause we know what the world could be
So I guess that makes both me and you a king

There's so many around the world
With voices buried beneath
We can't let our voice start to fade away
oh oh oh ooooooh
You gotta keep fighting, bold as a lion
oh oh oh ooooooh
You can make a change
I want you to be king king king king king king king
Be a king king king king king king
I want you to be a king king king king king king king
Be a king
I want you to be a king

Be a king
