

# Ready For Home

Capital Kings

Oh yeah  
I wish that I could find a way to hit fast forward  
Just to get through this maze  
And see that day where I'm finally headed home  
Forget that feeling  
Being lost and on the roam yeah  
I know I've been out of whack  
But I know you know how to bring me back 'cause  
Even when I slip and fall  
You always got my back through the thick of it all yeah

Prechorus:

Walkin' these circles got me comin' unglued  
Gave you my heart and then I stole it from you  
My weary head is swimmin' straight for your shore  
I feel a calling from the one I adore

Chorus:

Ready for home  
So won't you take me there  
Ready for home  
Out of this atmosphere  
I'm runnin' into your arms  
I'm steppin' out of the cold  
Ready for home  
I'm ready for home

I remember that very day  
I said I would be different  
That I'd always find a way  
To let you know that you'd always be the one  
I kept my eyes on  
But that's not what I've done  
'Cause you know  
I try to play my part  
And you know  
I always come up short  
I know I should be forever in debt  
But that's somethin' that you said  
You'd always choose to forget

Prechorus:

Walkin' these circles got me comin' unglued  
Gave you my heart and then I stole it from you  
My weary head is swimmin' straight for your shore  
I feel a calling from the one I adore

Chorus:

Ready for home  
So won't you take me there  
Ready for home  
Out of this atmosphere  
I'm runnin' into your arms

I'm steppin' out of the cold  
Ready for home

So if you're  
Leavin' with us sing it out loud  
Livin' it right  
There ain't no doubt  
If you're with us sing it out loud  
We're following the light yeah  
(2x)

Ready for home  
Ready for home

I'm runnin' into your arms  
I'm steppin' out of the cold  
Ready for home  
I'm ready for home

So if you're  
Leavin' with us sing it out loud  
Livin' it right  
There ain't no doubt  
If you're with us sing it out loud  
We're following the light yeah  
(2x)

I'm ready for home
