

# The Paradigm

Capital Kings

(Jon:)

No we won't turn around and hide anymore  
We're steppin' out and that's for sure  
No we won't be another face in the crowd  
'Cause right now we're gonna live it loud

(Soul Glow:)

We are the generation, we've got a reputation  
It's time to lead the way  
We are the motivation, just gotta activate them  
There is no time to wait

(bass drop)

(Cole:)

Can't fight the feelin' inside  
It's time to break out my disguise  
Bein' different is what I realize  
It takes to make a change and no we won't stop now  
So come on and get wit it  
No time to waste, yeah, we on a mission  
'Cause the more we pause the more that we wait  
Could be another chance a moment too late

(Soul Glow:)

We are the generation, we've got a reputation  
It's time to lead the way  
We are the motivation, just gotta activate them  
There is no time to wait
