

Upgraded...

Yea, we in the clear
Put it in drive, we outta here
But beware, I can smell the demons in the air
Uh, one life, that's right
So Imma keep goin' till the day I die
Try and stop me now and it's over
Imma shine brighter than a supernova

It's everywhere that I go
It's everything that I see
Yea, I've been transformed
By the K-I-N-G
I feel like I'm in my zone
Lighting up, they never can face it
No way that I will disgrace it
I've been upgraded

I've been upgraded

I've been upgraded

I'm starin' through a clearer lens than yesterday
Everything I've known is just in memory
Am I willing to loose it all for a glimpse of what I've seen?
My eyes have turned towards the sun
Oooh

It's everywhere that I go
It's everything that I see
Yea, I've been transformed
By the K-I-N-G
I feel like I'm in my zone
Lighting up, they never can face it
No way that I will disgrace it
I've been upgraded
