

Newport Party

Capital Lights

South Cali, look out here I come
Pacific coastline drive Highway 1 to Orange County
We'll party hard in the sun
Watching all the coast towns gather as one
Every city's got a reason and rhyme
Rivals never share their waves
It's not always easy putting differences aside
But when party fever's spreading this whole county gets together

Cause a Newport Party's not a real party 'til Laguna Beach bodies arrive
All the Riverside fellas lose their Cinderellas every night Orange County's alive

Everybody has got their rainy days
But no one's getting bored in California
Gonna volley up in Huntington Bay
The sand courts are calling and they're calling my name
Summer season brings reason and rhyme
Everybody's sharing their waves
It's not always easy living up to the hype
But California 'O' County, they know how to party!

Ok, somebody get me to the west coast
Newport Party, everybody in their dance clothes
Tell me if you need a Cinderella, I can get those
I don't mean to boast but I'm froze in my summer clothes
California cuties grab a camera, take a pose
Plenty of flowers but I'm looking for the rarest rose
We all got love and it shows and everybody knows
There will be no stopping unless the OC light goes
Ok, you know I'm back on the stage
With the fellas singing This is an Outrage
Girl, you're just a Mile Away
If you didn't see me flip the script, you're on the wrong page
Aye yo, Laguna Beach bodies in the atmosphere
Dance round 'til we shake the hemisphere
No need to fear, honey, it's just Bayn
Capital Lights, Newport Party
