

# When We Gonna Rise

Capleton

Ah me say Jahneration deh ya  
Straight from Kingston Jamaica  
Hear me now

What kind of world we a living in?  
Haffi reboot, restart from the beginning  
Seems like peaceful people a giving in  
Too hard fi set an example fi di pickneys  
So we grab a white paper and a pencil  
We deh pon a mission naffi sit down and chill  
Cyaa rest, cyaa tired, you know we cyaa still  
Haffi do di work haffi develop our skills  
To make it better  
Make it greater  
Be inspired leaders and become trendsetters  
Show the word Peace a no only 5 letters  
Tell it overseas, travel thousands kilometers  
Message haffi spread like radio transmitter  
Write it pon the walls, pon insta, pon twitter  
Politricks a lie and deceive like St Peter  
Keep dem pon a tight leash like dog-sitter

When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price so  
When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price

So wrong this is getting so wrong  
What kinda shady business di bigger heads a enter?  
So long, yeah me tell dem so long  
Nah go be a witness a dem evil agenda  
We a go bun di dutty minds nah fall fi di trick again  
Hear di cry when dem pull di trigga dem  
Time fi get together, haffi unify  
Me cya watch the pain a di people amplify, so  
Like elevator haffi level up  
When babylon a gear up and a start faya shot  
Peace and justice haffi develop  
So please low di people dem and lower your glock

When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price so  
When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price

Blessedly, cyan believe we livin' ina world weh so dreadly  
Kill the people wid di virus weh so deadly  
Oyy, da one ya go slap dem like medley  
Jahneration Fayaman a bun di faya redly

Babylon me find out and then dem waan beg we  
Tell di vampaya dem seh dem cyaan peg we  
And we nah allow babylon fi misled we  
Alright then so me say  
Dem a deal wid fixation of normality, oh  
Me find out dem a stay far from reality, oh  
And then me put a faya pon dem dutty evil policy, oh  
Cah me find out seh a fallacy, alright then

When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price so  
When we gonna rise  
We ago chase di devil ina disguise  
Focus pon the goal, we keep we eyes dem pon the prize  
One day or the other dem all ago pay the price

There will be no peace, no peace, no peace  
Unless the youths dem rise, dem rise, dem rise  
There will be no peace, no peace, no peace  
Unless we burn the beast, the beast, the beast  
There will be no peace
