

Over You

Capsize

I've grown tired of dreaming when I'm not sleeping
When I'm not sleeping

I'm not sure what brought you here
But I think you've overstayed your welcome

And I want you out of my head
Out of my mind
'Cause all I see is your face
Every time I close my eyes

I've grown tired of dreaming when I'm not sleeping
I want to be over you, I want to be over you
I've grown tired of dreaming when I'm not sleeping
I want to be over you, I want to be over you

Pull me backwards
As we both fall into place

I tried to stay a step ahead
But it hangs me up when I know what's unsaid

You can only push someone so far
Before they stop feeling anything at all

And I want you out of my head
Out of my mind
'Cause all I see is your face
Every time I close my eyes

My mind is shutting down
But I still have so much to say
Trying to tell you to leave
When I take the easy escape
So I breathe in
My classic evasion
That pulls me off the ground
Fixated on leaving

I've grown tired of dreaming when I'm not sleeping
I want to be over you, I want to be over you
I've grown tired of dreaming when I'm not sleeping
I want to be over you, I want to be over you

I'm not sure what brought you here
But I think you've overstayed your welcome
