

Pain In Purpose

Capsize

Swear I want to slip away
Give it up and never come back
Only reason I don't end it all
Is you don't deserve that

But my mind's on
Downward spiral when I sit back
But my heart fights back
Knowing I can make an impact

Every time I end up at nothing to lose
I'm still thinking of me
Wish I could show it to you

Alone in my room
16 with just a day dream
Almost couldn't see through
I didn't know what that means

Time won't slow down
So I'll do what I can to be
Remembered for being who I want to be
Do that for me

How could you question it's worth when
There's always been pain in purpose
'Cause it wouldn't mean shit if it came easy
There's nothing to say that can stop me

One too many dreams
Kept just a fantasy
Keep my distance
From your reality
Your life, your way
Owe that to yourself
Swear to god dreams come
I know that you'll pull through
I've already been you

How could you question it's worth when
There's always been pain in purpose
'Cause it wouldn't mean shit if it came easy
There's nothing to say that can stop me

Swear I want to slip away
Give it up and never come back
Only reason I don't end it all
Is you don't deserve that

How could you question it's worth when
There's always been pain in purpose
'Cause it wouldn't mean shit if it came easy
There's nothing to say that can stop me

'Cause it wouldn't mean shit if it came easy
There's nothing to say that can stop me
