

# Smiling As I Burn

**Capsize**

I lost my balance  
Trying to find a place where they can't  
Keep pushing me to the outside  
This place is just empty  
As I am on the inside  
Tracing back my footsteps  
Knowing it leads me

Back to that  
Same dark place  
I find myself over again  
And I won't hold it in  
'Cause I'm still caved in  
In the place that you left me  
For dead or lesson learned  
They all took their turns  
Smiling as I burn

I'd wait here forever  
Trying to find a quiet place to  
Fade away  
To ashes now  
The place of destructions where I'm found  
Bury me  
Faster now  
Still I'm screaming  
Let me descend  
Knowing exactly where I'm falling

Back to that  
Same dark place  
I find myself over again  
And I won't hold it in  
'Cause I'm still caved in  
In the place that you left me  
For dead or lesson learned  
They all took their turns  
Smiling as I burn

Keep pushing me to the outside  
This place is just empty  
As I am on the inside  
Tracing back my footsteps  
Knowing it leads me

Back to that  
Same dark place  
I find myself over again  
And I won't hold it in  
'Cause I'm still caved in  
In the place that you left me  
For dead or lesson learned  
They all took their turns  
Smiling as I burn
