

# The Same Pain

Capsize

Never thought that I would see it through  
But here I am with empty hands still standing next to you  
Never got what I gave and it seems  
That's exactly how you planned it to be

Now I find myself sleeping past noon  
Trying to forget about the time lost on you  
You were never looking out for me  
I'm back for what you took from me  
You were never looking out  
I'm coming back for what you took

So as long as it's the same pain  
Tear me to pieces again  
So as long as it's the same pain  
Tear me to pieces, tear me to pieces again

Never thought that I would see it through  
But here I am with empty hands still standing next to you  
Never got what I gave and it seems  
That's exactly how you planned it to be

If you'd died then I would die too  
Always following the footsteps that bring me close to you  
You were never looking out for me  
I'm back for what you took from me  
You were never looking out  
I'm coming back for what you took

So as long as it's the same pain  
Tear me to pieces again  
So as long as it's the same pain  
Tear me to pieces, tear me to pieces again

Never thought that I would see it through  
But here I am with empty hands still standing next to you  
Never got what I gave and it seems  
That's exactly how you planned it to be

Never peaceful as you pictured  
Never easy as it seems  
Never peaceful as you pictured  
Never easy as it seems

So as long as it's the same pain  
Tear me to pieces again  
So as long as it's the same pain  
Tear me to pieces, tear me to pieces again

Never peaceful as you pictured (so as long as it's the same pain)  
Never easy as it seems (tear me to pieces again)  
Never peaceful as you pictured (so as long as it's the same pain)  
Never easy as it seems (tear me to pieces, tear me to pieces again)
