

Big Eyed Beans From Venus

Captain Beefheart & The Magic Band

Distant cousins, there's a limited supply
And we're down to the dozens, and this is why
Big Eyed Beans from Venus! Oh my, oh my

Boys and girls
Earth people around the circle
Mixtures of man alive
Big eyed beans from Venus
Don't let anything get in between us

Beam in on me baby
And we'll beam together
I know we always been together
But there's more

Mister Zoot Horn Rollo, hit that long lunar note
And let it float

Men let your wallets flop out
And women open your purses
Cause a man or a woman without a big eyed bean from Venus
Is suffering with the worstest of curses
Yeah, you're suffering, with the worstest of curses

Put 'em out in the sun, and when the night come
You don't have to go out and get 'em
They'll glow with you
They'll go with you
They'll show with you
Ain't no losers
'Cause they're on the right track
'Cause they're on the right track
You can be on the right track, woman
Of course, of course

Ain't no SNAFU, no fol-de-rol

Check these out, Big eyed beans from Venus
Oh, let a few out, let 'em pass in between us

Distant cousins, there's a limited supply
And we're down to the dozens, and this is why...

Don't let anything get in between us!
