

# Change

Captain Jack

Fun Factory and Captain Jack

Wild

Make that change and open your heart

Change, we need a change so open your heart

Because it's time to make a new start

Let peace and love back into your heart

To make a better place, change, change

To make a better place

Listen up, it's a brand new track

Fun Factory and Captain Jack

90s style, we party wild

Throw your hands up, don't be shy

Free your soul let down your guard

Make that chance and open your heart

Open your heart

Make that chance and open your heart

Change, we need a change so open your heart

Because it's time to make a new start

Let peace and love back into your heart

To make a better place, change, change

Change, we need a change so open your heart

Because it's time to make a new start

Let peace and love back into your heart

To make a better place, change

Change, change, we need a change

To make this world a better place

Open your mind, open your heart

Before this world falls apart

We need peace, love and harmony

Hand in hand just you and me

No one's right, no one's wrong

Work together, we are strong

Let's have a celebration

Invite the hole damn nation

Unity is something, we should embrace in

Stop this hate cause the color of our skin

Love is the answer that starts within

Cause if you can't love yourself

You can't win, you can't win

To make a better place

Change, we need a change so open your heart

Because it's time to make a new start

Let peace and love back into your heart

To make a better place

Change, change, change, change

To make a better place, change
