

## Turn It Up

Captain Jack

I got to turn it up - I got to turn it up  
You got to turn it up - You got to turn it up  
We got to turn it up - We got to turn it up  
They got to turn it up - They got to turn it up

Give me the power to make me lose control  
Give me the hour - feel it in my soul  
Give me the feeling - got to have it all  
Give me the hour - give me the power

We've seen the moonlight - shining on our way  
We've seen the room that keeps us here to stay  
We've been the key to make a better day  
Let's face the hour - turn the power

I got to turn it up - I got to turn it up  
You got to turn it up - You got to turn it up  
We got to turn it up - We got to turn it up  
They got to turn it up - They got to turn it up

Give me the light - I need to see it all  
Give me the right - I want to break the wall  
Give me the night - to make me lose control  
Give me the hour - give me the power

I've seen the sea - that takes my breath away  
I've seen the tree - with leaves of autumn grey  
I've been so free - since nature crossed my way  
This is the hour - turn the power

I got to turn it up - I got to turn it up  
You got to turn it up - You got to turn it up  
We got to turn it up - We got to turn it up  
They got to turn it up - They got to turn it up
