

## What Goes Around

Captain Jack

What goes around comes around - In your face  
What goes around comes around - In this place  
What goes around comes around - In the states  
What goes around comes around!

Be what you want, baby be what you wanna be  
I like what you do to me  
Be what you want, baby be what you want to be  
Put me to xtc  
Just take a look at me, and if you wanna  
Be what you want, baby be what you want to be  
You put me to xtc  
Be what you want to be  
Say you'll be good to me

What goes around comes around - In your face  
What goes around comes around - In this place  
What goes around comes around - In the states  
What goes around comes around!

Stay in my heart, baby stay in my heart tonight  
You know it will be alright  
Pray for my love, baby pray for my love tonight  
Stay and just hold me tight  
Make it all through the night, and if you wanna  
Stay in my heart, baby stay in my heart tonight  
You know it will be alright  
Just stay and hold me tight  
I'll be your love tonight

What goes around comes around - In your face  
What goes around comes around - In this place  
What goes around comes around - In the states  
What goes around comes around!
