

# But I Think It's A Dream

Captain & Tennille

Your mouth is moving  
And words are coming from you  
And the words are soft and sweet  
But I think it's a dream

Your eyes are on me  
And they say how much you want me  
And I know I won't say no  
But I think it's a dream

And I believe what you say  
I believe what I see  
I believe what I feel  
But I think it's a dream... a dream

Your fingers touch me  
And they're thrilling me so much  
And I'm going under fast  
But I think it's a dream

Your arms around me  
Ecstasy has found me  
And I know that you are real  
But I think it's a dream

And I believe what you say  
I believe what I see  
I believe what I feel  
But I think it's a dream

Your arms around me  
Ecstasy has found me  
And I know that you are real  
But I think it's a dream

And I believe what you say  
I believe what I see  
I believe what I feel  
But I think it's a dream

Yeah, I believe what you say  
I believe what I see  
I believe what I feel  
But I think it's a dream

I think it's a dream, ooh yeah  
I think it's a dream, oh, but I think it's a dream
