

# I Must Be In Love

Captain & Tennille

You and me  
We keep getting closer  
Night by night  
It's all right when  
You're here with me  
It's like I'm underneath  
A magic spell

Won't you tell me what is love like  
Do stars come out in daylight  
Does every kiss feel just right  
How I wish I knew  
Won't you tell me what does love do  
Does it make everyday new  
Does it make me want to hold you  
If that's what it does  
Then I must be in love

It's all so new  
All you do is smile and  
I feel fine  
Everytime it's  
Too good to end  
I never meant to fall but  
Still I fell

Won't you tell me what is love like  
Do stars come out in daylight  
Does every kiss feel just right  
How I wish I knew  
Won't you tell me what does love do  
Does it make everyday new  
Does it make me want to hold you  
If that's what it does  
Then I must be in love  
...
