

No Love In The Morning

Captain & Tennille

Another night on the town
Steppin' out, jivin' around
Don't know where you're going
All dressed up for no one
Singles bars, they get you down

But you're going somewhere just cause it's loud
Puttin' on your cool for the crowd
You tell them you ain't lonely
But you're dying to meet
Mr. One And Only to sweep you off your feet

And there'll be no love in the morning
It's gonna be so cold in the morning
He's all gone in the morning
He won't give you no love in the morning

That one over there qualifies
He's the right age, color and size
He's handsome and he's witty
He's good at the game
He tells you that you're pretty, but he forgot your name

And there'll be no love in the morning
It's gonna be so cold in the morning
He's all gone in the morning
He won't give you no love in the morning

How long can this go on
Lookin' for a love on the run
Love is just a body
That's all you get
Until you find somebody sleeping in your bed

And there'll be love in the morning
He won't leave you so cold in the morning
He won't be gone in the morning
Baby, you need love in the morning
You need some love in the morning
He won't leave you so cold in the morning
He won't be gone in the morning
Baby, you need love in the morning
You need some love in the morning
He won't leave you so cold in the morning
He won't be gone in the morning
Baby, you need love in the morning
