

Fork Tongued

Capture the Crown

It takes a big man
To want to say
To want to feel just anything
It takes a big man
To show you
They feel remorse for the shit
They've put us through
But oh I want to let you know
There's no forever
And no way out

I can't believe that a certain someone
Could be so selfish
He wanted more
So pull me up
Grab me by the throat
Push my buttons like a remote (like a remote)

How can I say what I feel
When I don't feel anything at all?
What's a dude gotta do
To live up to his morals
To show how he feels
There's no forever
And no way out

This is not a test
Although I think you've lost all your respect
Ha. Ha ha ha.
I've almost lost it
I've almost lost the fucking plot
Ha. Ha ha ha.
You beg forgiveness
And I've had it up to here
I've had enough

Ha. Ha ha ha.
This conversation (this conversation)
Is almost over

Am I ever going to see the resolution?
Choose your friends ever so carefully

How can I say what I feel
When I don't feel anything at all?
What's a dude gotta do
To live up to his morals
To show how he feels
There's no forever
And no way out

Have a taste of your own damn medicine
Wait til you see the mess you've made
Wait.
